

PORT-O-GUARD

The Port-O-Guard Expanding Barrier is a lightweight, free-standing safety barrier designed for the temporary restriction of access to hazardous or restricted areas. Weighing just 7 kg, it expands to 2 metres, making it easy to transport, deploy and store.

Manufactured from durable plastic, the Port-O-Guard is supplied in a highly visible red and white finish with integrated flashing warning lights at each end for increased visibility and enhanced site safety.

- Height: 1.1m
- Expands Up To: 2m
- Weight: 7kg
- Colors: Red & white
- Flashing red lights on each end
